**NEW PRODUCTS 2019**

Want to enjoy diving during Winter?

For the new season we are introducing two new models of trilaminate dry suits:

11041B - With standard latex seals (with blue panel on the chest)

11041R - Equipped with SI TECH rings at wrists and neck for easy replacement of the seals (with red panel on the chest)

11041R  
Quick Change

Inflation Valve: SI TECH Shell

Front BDM waterproof zipper covered with external zipper

SLÄGGÖ Flex Ring

The large pockets can be squeezed if not used

Rubberized knee pads

Heavy duty rubber boot

DRUST Neck System, the third generation of Neck System. Even softer and more flexible.

Standard latex seal

Exhaust Valve: SI TECH Argo

Crotch strap with neoprene protection Double crotch strap at the back

CORDURA 500D

BUTYL RUBBER  
POLYESTER

Extra strong Cordura fabric

Double taping on the crotch junction on the inside to ensure maximum waterproofness

New dry suit in pre-compressed neoprene with back BDM zipper.

109100  
Neoprene Dry Suit

The advantages of neoprene dry divide suits against the more popular dry suits in trilaminate are:

- ※ Easy repair and maintenance.
- ※ Some thermal insulation so no undersuit or just a thin one will be enough for most water temperatures.
- ※ Elasticity (neoprene is stretchy, so it can be a little tighter on the body still allowing movement).
- ※ Price (roughly 30 to 40% cheaper than a trilaminate).

The disadvantages are:

- ※ Heavier weight.
- ※ Takes longer to get dry
- ※ Back zipper needs other's help to close the zipper (In fact there are DIY tricks)
- ※ Compression at depth (even though the neoprene is pre-compressed) and subsequent change in buoyancy.
- ※ Less flexible for those who dive in both cold and warm waters, since you don't have the flexibility of using different undersuits according to the water temperature.

852111  
Bag for Dry Suit

The bag can be used as a mat

24010A - size L  
24011A - size S  
W/padding on alu plate and  
shoulders w/SS D-rings.

24010B - size L  
24011B - size S  
W/padding on alu plate and  
shoulders w/alu D-rings.

ALU PLATE

24010S - size L  
24011S - size S  
W/padding on SS plate and  
shoulders w/SS D-rings.

STAINLESS STEEL PLATE

Soft Harness (no plate) with SS rings.  
24012S / 24012M / 24012L  
W/padding on SS plate and  
shoulders w/SS D-rings.

Bladders with 11 litres volume in three different colours

24008B LZ 11 24008P LZ 11 24008G LZ 11

Bladders with 14 litres volume in three different colours

24009K LZ 14(Front/Back) 24009P LZ 14 24009B LZ 14

In pink.

24030B  
Weight pockets vertical (dual flap)  
for maximum 2kgs

240312  
Weight Pocket for maximum 2kgs

We produce our own BCDs and bladders!

This allows us maximum flexibility as regards to colour combinations or personalization of the products. These are just some examples!

Want to have a personalized bladder with your flag on it? WE CAN DO IT!

852552  
Black 1m SMB

761202 / 761203 / 761204  
Tank Rigging  
For cylinders with diam.: 165-210mm  
For cylinders with diam.: 156-178mm  
For cylinders with diam.: 130-152mm

240366  
SM Waist Belt Buckle

SM quick adjust waist belt buckle - the buckle can be moved along the webbing only when in perpendicular position, allowing easy and quick adjust during the dive when cylinder buoyancy changes from negative to positive.
